greenCNC - AHEAD OF THE TIME

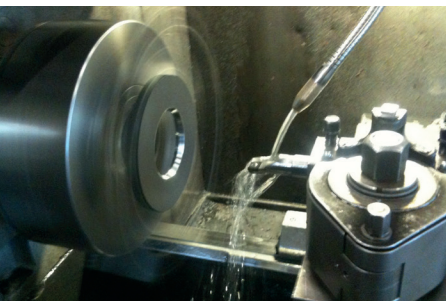

WATER WITH EXCELLENT COOLING AND LUBRICATING CHARACTERISTICS

greenCNC, the future-proof technology of mineral oil-free and water-based high-performance lubricant.

greenCNC combines the positive properties of the classic base fluids oil and water.

IMPROVED PERFORMANCE THROUGH

- increased stability (process reliability)
- optimal lubrication properties
- ideal cooling (solution)

greenCNC[®]
Metalworking

COST REDUCTION KSS

- easy handling
- extremely long service life
- 5 years and more, not bioaccumulating
- Reduction of change intervals
- Reduction of disposal costs
- Lowering costs through additional products (Bactericides, fungicides, stabilizers)
- low concentrate consumption

TOOL

- Increasing tool life
- Reduction of set-up times
- Reduction of cleaning times (oil-free, water-soluble)
- no fire and explosion hazard
- Cost savings on insurance
- Price stability and guaranteed availability

WORK ENVIRONMENT

- environmentally friendly
- improved room climate
- no oil mist, no health burden for employees
- clean workplace, clean halls

ECOLOGY

- contains no solvents
- free of synthetic and / or mineral oils
- contains no volatile hydrocarbons
